CYTOCLONAL PHARMACEUTICS INC.  
NOTES TO FINANCIAL STATEMENTS  
June 30, 1997  
(unaudited)

(1) FINANCIAL STATEMENT PRESENTATION

The unaudited financial statements of Cytoclonal Pharmaceuticals Inc., a Delaware corporation (the "Company"), included herein have been prepared in accordance with the rules and regulations promulgated by the Securities and Exchange Commission and, in the opinion of management, reflect all adjustments (consisting only of normal recurring accruals) necessary to present fairly the results of operations for the interim periods presented. Certain information and footnote disclosures normally included in financial statements, prepared in accordance with generally accepted accounting principles, have been condensed or omitted pursuant to such rules and regulations. However, management believes that the disclosures are adequate to make the information presented not misleading. These financial statements and the notes thereto should be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 1996. The results for the interim periods are not necessarily indicative of the results for the full fiscal year.

(2) STOCK OPTION PLAN

In April 1996, the Board of Directors of the Company adopted the Cytoclonal Pharmaceuticals Inc. 1996 Stock Option Plan (the "1996 Plan") subject to stockholder approval. The 1996 Plan, which was approved by a majority of stockholders on June 3, 1996, authorizes 750,000 shares of common stock to be reserved for issuance to the Company's officers, employees, consultants and advisors. As of August 4, 1997, options to acquire 255,000 shares of common stock are available for future grant and options to acquire 495,000 shares of common stock remain outstanding pursuant to the 1996 Plan. The 1996 Plan provides for the grant of incentive stock options intended to qualify as such under Section 422 of the Internal Revenue Code of 1986, as amended, and nonstatutory stock options which do not so qualify.

(3) PLACEMENT AGENT PURCHASE OPTION EXERCISE

On February 21, 1997, the Company received aggregate proceeds of \$500,000 from the exercise of outstanding placement agent purchase options and, in connection therewith, issued 50,000 shares of its preferred stock and 250,000 shares of its common stock.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

THE FOLLOWING DISCUSSION SHOULD BE READ IN CONJUNCTION WITH, AND IS QUALIFIED IN ITS ENTIRETY BY, THE FINANCIAL STATEMENTS AND THE NOTES THERETO INCLUDED IN THIS REPORT. THIS DISCUSSION CONTAINS CERTAIN FORWARD-LOOKING STATEMENTS THAT INVOLVE SUBSTANTIAL RISKS AND UNCERTAINTIES. WHEN USED IN THIS REPORT, THE WORDS "ANTICIPATE," "BELIEVE," "ESTIMATE," "EXPECT" AND SIMILAR EXPRESSIONS AS THEY RELATE TO THE COMPANY OR ITS MANAGEMENT ARE INTENDED TO IDENTIFY SUCH FORWARD-LOOKING STATEMENTS. THE COMPANY'S ACTUAL RESULTS, PERFORMANCE OR ACHIEVEMENTS COULD DIFFER MATERIALLY FROM THOSE EXPRESSED IN, OR IMPLIED BY, THESE FORWARD-LOOKING STATEMENTS. HISTORICAL OPERATING RESULTS ARE NOT NECESSARILY INDICATIVE OF THE TRENDS IN OPERATING RESULTS FOR ANY FURTHER PERIOD.

Cytoclonal Pharmaceuticals Inc., a Delaware corporation (the "Company"), was duly organized and commenced operations in September 1991. The Company is in the development stage, and its efforts have been principally devoted to research and development activities and organizational efforts, including the development of products for the treatment of cancer and infectious diseases, recruiting its scientific and management personnel and advisors and raising capital.

The Company's plan of operation is aimed at research and development and related activities comprising:

- further developing the Paclitaxel production from the Fungal Paclitaxel

Production System using optimized fermentation technologies and strain improvements utilizing selection and Paclitaxel-specific genes.

- development of Paclitaxel treatment of polycystic kidney disease, a potential new Paclitaxel indication.
- further development of a diagnostic test using the patented LCG gene and related MAb to test in vitro serum, tissue or respiratory aspirant material for the presence of cells which may indicate a predisposition to, or early sign of, lung or other cancers.
- developing a humanized antibody specific for the protein associated with the LCG gene and, if successful, submission of an IND for clinical trials.
- further testing the TNF-PEG technology as an anti-cancer agent in animal studies and possible submission of IND.
- testing of proprietary vectors which have been constructed for the expression of specific proteins that may be utilizable for vaccines for different diseases.
- further development of anti-sense technology currently being conducted at the University of Texas at Dallas.
- making modest improvements to the Company's laboratory facilities.

7

- hiring additional research technicians and a financial vice president.
- seeking to establish strategic partnerships for the development, marketing, sales and manufacturing of the Company's proposed products.

The actual research and development and related activities of the Company may vary significantly from current plans depending on numerous factors, including changes in the cost of such activities from current estimates, the results of the Company's research and development programs, the results of clinical studies, the timing of regulatory submissions, technological advances, determinations as to commercial potential and the status of competitive products. The focus and direction of the Company's operations will also be dependent upon the establishment of collaborative arrangements with other companies, the availability of financing and other factors.

For the period from April 1, 1997 to June 30, 1997, the Company incurred a net loss of \$779,000 compared to a net loss of \$663,000 for the same period in 1996. For the period from January 1, 1997 to June 30, 1997, the Company incurred a net loss of \$1,517,000 compared to a net loss of \$1,320,000 for the same period in 1996. The increase from the previous year was attributable to an increase in operating expenses and a decrease in interest income. The Company expects to incur additional losses in the foreseeable future.

The Company incurred general and administrative expenses of \$707,000 and \$887,000 for the six months ended June 1996 and June 1997, respectively. The increase from the previous year was attributable to increased technology marketing and public relations costs, consulting fees and legal and professional fees, partially offset by a decrease in insurance expenses and travel and lodging costs.

The Company incurred research and development expenses of \$729,000 and \$688,000 for the six months ended June 1996 and June 1997, respectively. The decrease was attributable to the completion of the Company's funding obligation to Research and Development, Inc. under the collaboration agreement, partially offset by an increase in research salaries, royalties and expenses associated with the Washington State University Research Foundation agreement.

The Company believes that the net proceeds from its initial public offering of November 1995 and the exercise of the placement agent purchase options in February 1997 will be sufficient to finance the Company's plan of operation through the end of 1997. There can be no assurance that the Company will generate sufficient revenues to fund its operations after such period or that any required financings will be available, through bank borrowings, debt or equity offerings, or otherwise, on acceptable terms or at all.

## PART II. OTHER INFORMATION

## Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS
